## MEETING AGENDA

### ACTIVE TRANSPORTATION PROGRAMMING COMMITTEE Wednesday, August 13, 2025 - 10:30 AM

---

#### AGENDA

- 1) Welcome
- 2) VOTE: Approve the May 14, 2025 meeting summary
- 3) VOTE: Scope Change: Trail Linking Merriam and Shawnee
- 4) State TAP balances, project updates
- 5) Adjournment

Next Scheduled Meeting: Wednesday, November 12, 2025, 10:30 a.m.

**Getting to MARC:** Information on transportation options to the MARC offices, including directions, parking, transit, carpooling, and bicycling, can be found online. If driving, visitors and guests should enter the Rivergate Center parking lot from Broadway and park on the upper level of the garage. An entrance directly into the conference area is available from this level.

**Parking:** Free parking is available when visiting MARC. Visitors and guests should park on the upper level of the garage. To enter this level from Broadway, turn west into the Rivergate Center parking lot. Please use any of the available spaces on the upper level at the top of the ramp.

**Special Accommodations:** Please notify MARC at (816) 474-4240 at least 48 hours in advance if you require special accommodations to attend this meeting (i.e., qualified interpreter, large print, reader, hearing assistance). MARC programs are non-discriminatory as stated by Title VI of the Civil Rights Act of 1964. For more information or to obtain a Title VI Complaint Form, call 816-474-4240 or visit our webpage.

Dear Active Transportation Programming Committee,

The cities of Merriam and Shawnee were awarded joint project funding through the Transportation Alternatives Program to undertake the construction of a bicycle and pedestrian link from the Turkey Creek Streamway Trail in Merriam to Downtown Shawnee. We greatly appreciate the funding and the opportunity to enhance bicycle and pedestrian connectivity within our communities and region.

Since the official award notice, each city has been conducting due diligence to move the project design forward in 2026. During discussions with area property owners, it became clear that the originally proposed trail route is only achievable through condemnation by the City of Merriam. Merriam will not pursue condemnation for the project.

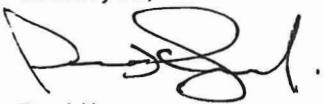

As such, an alternative route is being proposed for your consideration (map included with this letter). The alternative route wholly maintains the integrity and outcomes of the project, including:

- No proposed changes to the primary community connection points (i.e., Downtown Shawnee, Oxbow Park and Trail, Cambell Park, Turkey Creek Streamway Trail, and Merriam Park Elementary School);
- Supporting safe routes to schools, and both complete and green streets;
- Increased pedestrian and bicycle mobility and connectivity;
- Improving roadway safety; and
- Reducing automotive transportation.

Additionally, the route change will not increase the estimated total project budget allowing each city to maintain the required and proposed project match. The project timing also remains the same.

We appreciate your consideration and request your approval of the modified trail route for the trail linking Merriam and Shawnee.

Thank you,

Paul Kramer

Shawnee City Manager

### **MARC Staff:**

---

Alicia Hunter  
Bobby Evans  
Cy Splichal

Marc Hansen  
Patrick Trouba  
Ron Achelpohl

### **Agenda:**

---

- 1. Welcome and Introductions**
- 2. VOTE: Approve the February 12, 2025 Meeting Summary**
  - a. Bailey Waters moved to approve.
  - b. Wes Minder seconded the motion.
  - c. **Motion passes.**
- 3. VOTE: Scope Change: Unified Government Comprehensive SRTS Outreach & Education Program**
  - a. The Unified Government requested to relinquish \$150,000 of TAP funding programmed for 2024. Patrick Trouba explained that the Unified

Government had submitted the request this time last year, but it was not placed on the agenda.

- b. The Kansas co-chair asked if there were any objections to the request, and there were not. The request was approved.

#### **4. KC2026 World Cup Transportation discussion**

- a. Bobby Hosak from HNTB, representing KC2026, spoke about the scalable infrastructure and bus service options for the World Cup for which funding has not yet been identified. KC2026 hopes that funding will become available through the August Redistribution process. Meeting attendees asked questions about the World Cup and the ability to construct improvements.

#### **5. VOTE: 2025 Missouri Unfunded Needs**

- a. Ron Achelpohl introduced the Missouri Unfunded Needs list as the process of identifying projects for which MoDOT would consider allocating funding if any became available. MARC is looking to advance recommendations for the list to MoDOT. For multimodal projects, the target for the list is \$190 million, +/-10%. For active transportation projects, the total dollar amount of projects on the list is \$67 million. Most of the list remains the same as last year, with a couple changes. MARC staff is asking for a recommendation to advance the list of bike/ped projects to TTPC and the MARC Board of Directors.
- b. Wes Minder motioned to amend the list to remove the Grand Blvd – Riverfront pedestrian and bike bridge from the list (as it has been funded) and add \$3 million for bike/ped facilities around I-435 and MO-45.
- c. John Davis seconded the motion.
- d. **Motion passes.**

*See the attached slides for more details.*

#### **6. Recent Federal Guidance**

- a. Ron Achelpohl reviewed a recent letter from the Secretary of Transportation. Grant recipients need to comply with the federal administration's policies on DEI and immigration. The National Electric Vehicle Infrastructure (NEVI) program has been paused, but not due to the concerns in the letter.

#### **7. KDOT & MoDOT updates, program balances and project updates**

- a. KDOT: There are a couple of projects pending obligations, one in Olathe (Cedar Creek Trail) and one in Edwardsville (Towne Centre Connector). These are anticipated to obligate in August.
- b. Kansas TAP balance: \$1.77 million pending obligations, \$2.44 million unobligated. No projects other than Edwardsville's have indicated they can advance to obligate in FY 2025.
- c. Missouri TAP balance: \$382,000 obligated, \$6.4 million to go to meet the 120% obligation target. Refunds to balance do not count against obligation target.
- d. MoDOT: Grain Valley will have projects obligating soon.
- e. Project updates: Kansas projects are as stated previously. Some Missouri FY 2025 projects will be pushed back to FY 2026. The MO obligation target

should be reached, though perhaps not by as much as previously anticipated.

*See the attached slides for more details.*

**8. Transportation Improvement Program Update**

- a. Marc Hansen reminded the committee that MARC updates its Transportation Improvement Program (TIP) every two years. The next TIP will cover federal fiscal years 2026-2030. Listings from the TIP will be sent out for project sponsors to mark up with updates and send back. Hoping to have those updates by early July. MARC intends to take the draft update to TTPC in September for a release for public review and comment, and for approval by TTPC and the MARC Board of Directors in October.

**9. ConnectedKC 2050 Update**

- a. Cy Splichal reviewed the purpose and aspects of the ConnectedKC 2050 Update, including population forecasts and financial capacity forecasts, survey results, an updated policy framework, and more. The update process is now in the final phase of public engagement. The plan will be sent for approval from TTPC and the MARC Board of Directors in June.

*See the attached slides for more details.*

**10. Meeting adjourned**

- a. Brian Nowotny will no longer be Missouri co-chair of the ATPC since he has accepted a position in the Johnson County Parks & Recreation District.
- b. Bailey Waters moved to adjourn.

## **2025 Missouri unfunded needs**

- ▶ **Goal:**
  - ▶ provide a list of projects which represent where additional funding could be used
  - ▶ Be able to react quickly with deliverable projects to any identified or secured funding
- ▶ **Request: Update *unfunded transportation needs* list**
  - ▶ Complete work by June 6, 2025
- ▶ **Key Factors considered in making recommendations:**
  - ▶ The relative priority of projects in the MTP and other plans
  - ▶ Priorities of cities, counties and other agencies within their individual jurisdictions
  - ▶ Distribution of projects within the region
  - ▶ Progress made towards implementing projects on the previous list
  - ▶ Project readiness w/ opportunity for annual updates.
  - ▶ MoDOT staff priorities

## Transportation Improvement Program Update

15

16

## WHAT IS A METROPOLITAN TRANSPORTATION PLAN (MTP)?

- Required planning document for our metro. Update required every 5 years
- Sets vision, establishes goals and identifies regionally significant projects
- Guides how regional transportation system will be developed for next 25 years

Major streets and highways

Public transportation

Bike & pedestrian accessibility

Freight transportation

17

## SCENARIO PLANNING

### WE TESTED FOUR LAND USE DEVELOPMENT SCENARIOS TO SEE THE FUTURE:

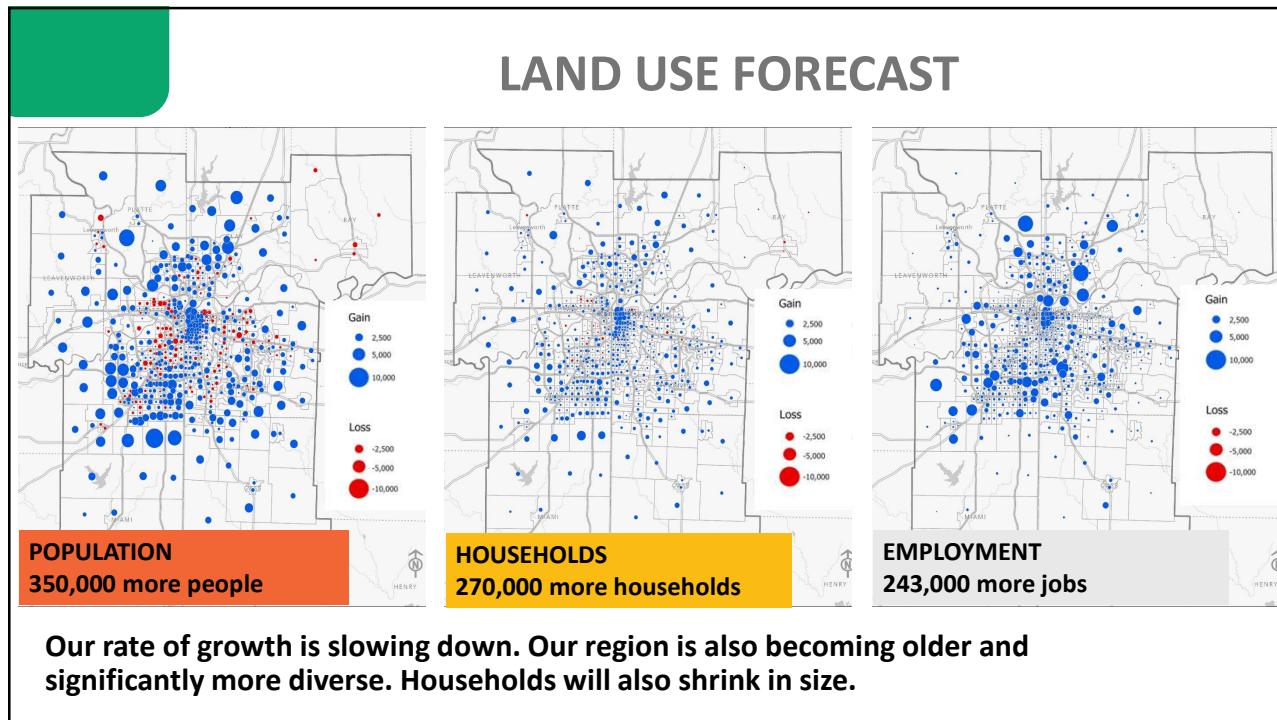

- Higher/lower than anticipated population growth rates vs. more compact/dispersed land use

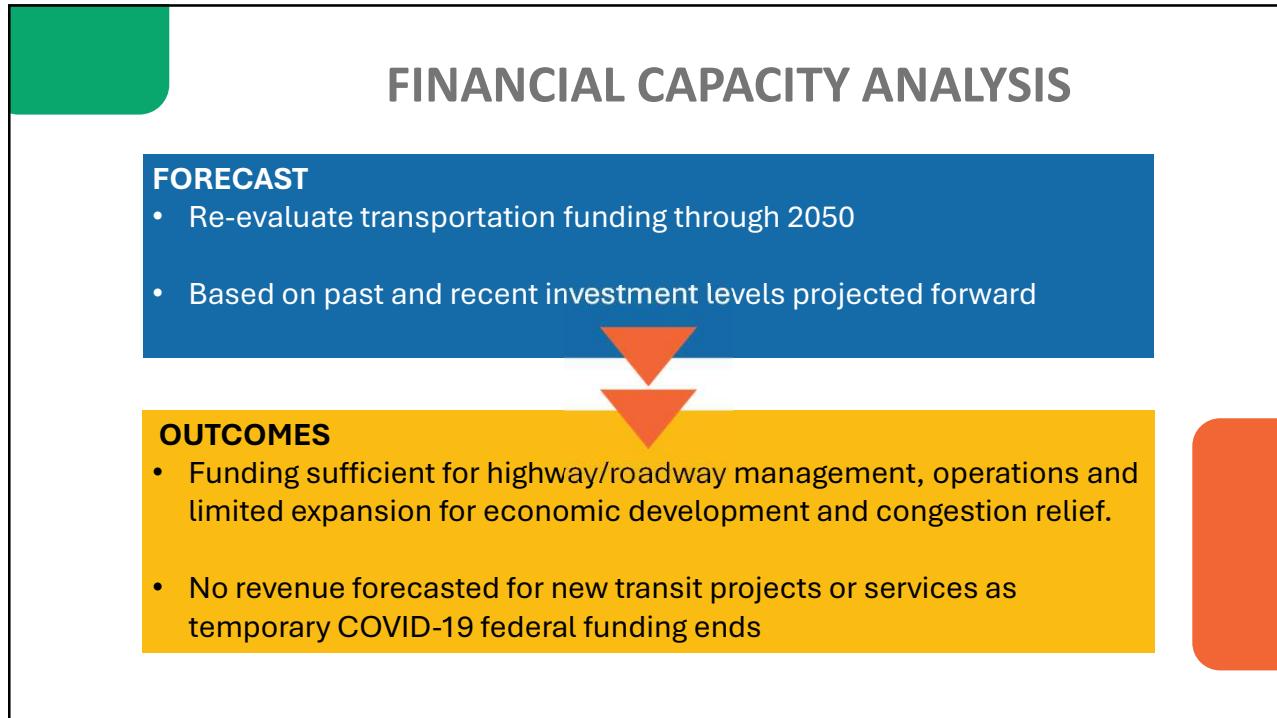

### WHAT WE LEARNED:

- *In slow growth and high growth futures, best investment and growth strategy = focused growth with heavy multimodal investments*

18

19

20

## ENGAGEMENT & OUTREACH

### MOST REGIONAL RESIDENTS...

#### Strongly support:

- Healthy environment = quality water and clear air
- Keeping roads and bridges in good condition
- Increased safety on all types of transportation modes
- Affordable housing as a major need

- Believe we should prioritize or support projects and programs that address the needs of disadvantaged populations
- Support regional or county-level investments in public transportation to expand transit options across the region

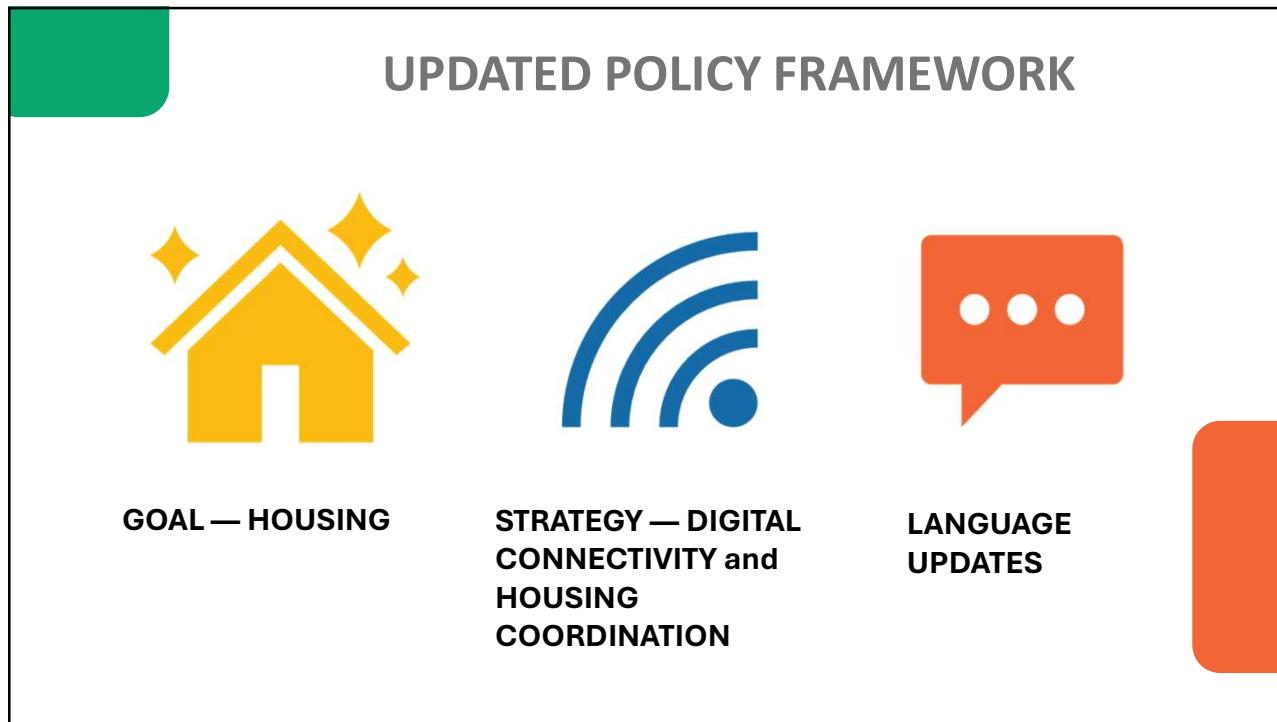

Electric vehicles met with mixed support
